

*You must make a decision today, who are you going to serve--God or man.*

**“Now therefore, fear the LORD, serve Him in sincerity and in truth, and put away the gods which your fathers served on the other side of the River and in Egypt. Serve the LORD!**

**JOSHUA 24:14(NKJ)**

**P**rophesy #2 (continued) **Paradigm Shift.** Please read Prophecy #2, December 2, 2007 before proceeding. Thanks.

Christian Americans and Americans in general have fallen into idolatry, hedonism, necromancy, pornography, immorality, greed, avarice, evil ways. Not all, but many who profess to be Christian, but are truly not – not in action, but in name only.

God will move on this group (*in this case a country, USA*) as it did against Israel and Solomon. I never could figure out the “model” of the divided heart because this model requires two kingdoms splitting from one or two armies from the initial kingdom. I tried to apply the “model” to the Civil War in America. It did not work. This is now so in America. In old Babylon, in Iraq – there are 190,000 contracted soldiers (retired US regular Army, neo-nazis, disenfranchised whites, poor whites, Army rejects, etc; you can only imagine) in a private army helping soldiers in the US army do their job. Or are they? What is going to happen when there is no more war? When they come home—who do they fight then? They are getting paid six (6) times what US regular soldiers are getting paid—by the way, my tax dollars and your tax dollars go to pay for them-- instead of being directed towards education, healthcare, nor any good thing, you and I fund an illicit private army. And how do you think US regular Army soldiers feel towards this *rogue army*? And by the way, there are over 630 million automatic weapons in circulation in the world. Imagine that.

Now the stage is set. US Defense Contractors now have an army at their disposal – actually, anyone does who has the money to purchase their services. Now there is a private army which is as well armed as the US Army and maybe better armed—with access to military logistics. **So now the divided heart** (the heart of a nation) **can bring the divided kingdom** (a nation divided in warfare) against itself. Watch this model as it unfolds.

If it couldn't get in your face any bigger than this, let me tell you... the demons are bold. They are in your face and you do not see them. What is the name of America's *most favorite* television (*tell a lie through vision*) show? AMERICAN IDOL.

Wow, that was lot. We begin again here.

We can see in today's headlines how soldiers coming back from Iraq are at war with themselves and with society at large. This is to be expected from soldiers coming home, the professionals will say. When it becomes more than normal, then listen then to what they have to say. But know this: **"Do not be deceived, God is not mocked; what a man sows, that he will also reap."** Galatians 6:7 (NKJ) Americans are sowing in Old Babylon.

For the new age "Christians" or folk, you can call it "Karma," but whatever you call it, the event horizon is here—it has begun. But we cannot see it because of the camouflage—we are focused on other things... like a tax cut that is designed to take your focus away from the truth. And the truth is a tax cut will do nothing for the economy. Imagine a circle of friends with a fixed amount of money. We can pass the money among ourselves, but no one in the group gets any more money than that which is in the circle. The only way for money to increase in that circle (and hold its value—meaning more not being printed) is for money to come from outside the circle. This is economics 101 and the elect know it; the intellectuals know it as well. They are "blowing smoke up your behinds," while they prepare to go into Iran. The news bureaus are their spokespersons keeping you in the dark with "Fa-la-la." See Robin at CNN and listen to the smoke coming out of her mouth, "What do you want me to say? Fa-la-la? Okay, Fa-la-la." But she is so cute doing it.

Okay, here we go. There has been a paradigm shift in the United States leadership. Paradigm: A model or pattern.

See Prophecy #1, December 2, 2008. Daily Devotional Archives. If the earth's wobble stops and there are world-wide catastrophes in the nature of the Indonesian tsunami(s), then world oil production and distribution would be interrupted or positioned to take years to recover. If the world scientists attest to this natural event, which they do (earth wobble stop; scheduled for December 21, 2012 that happens every 13,000 years), then the leader of the "most powerful" nation on earth would have to change the PARADIGM under which he and his nation operated. He would have to do things which would ensure the protection of the production, distribution, and obtaining the precious oil which industrialized nations use to move world societies forward. (Or that is the belief.)

As the "tax cut" idea goes, so goes many other matters of national security interests, i.e., "blowing smoke." You are not going to be told what is going on, what is really happening now until you read it in the US National Archives—after the fact, years from now. This is prophecy—here it comes.

The Bush family and major oil has been in bed with the Saudi Arabian leaders for decades. These are millionaires who want to keep their millions no matter the

cost to others. The Saudis have the oil, the industrialized nations led by the U.S. use the oil; all others being pawns in their game. So it would take a dramatic event to get the American people to go along with taking oil fields from the Middle East without a cause. The potential “earth wobble” disasters could not be presented to the public because it would have the same reaction you are having to these words right now--DISBELIEF. Therefore something else had to be formalized to get American people to form a united front.

Once in place—the united front—then almost any plan—to include but not limited to military action--which would be easily implemented and carried out with the U.S. public stamp of approval. Weapons of Mass Destruction was “smoke blown” you know where...fooling even the elect. A staged disaster killing 10,000 people would be okay with this new paradigm because millions have the potential to be killed by the wobble event.

The plan is to secure the oil fields in the Middle East. So now there is another “smoke blowing” trick taking place concerning Iran. And yet another “smoke blowing” trick will announce our attempts to take Kuwait’s oil fields. Watch this unfold before your eyes. Before Kuwait is taken and after Iran is initially attacked--Russia and China will not stand by to watch all this happen. China will put on the economic squeeze and Russia will offer a military challenge here at home (since our home is left undefended with most troops away). They will be able to have initial successes because we will be in internal guerilla conflict between those who have come back from the war with automatic weapons. (Minorities and Hebrews beware.) All of this is coming soon... very soon. World War Three is upon us, it has started and you do not see it because people have accepted what governments tell them. *(there is more...)*
